Az Ágostai Hitvallású Evangélikus Egyház eredetileg az erdélyi szászok egyháza volt. A szászok kivándorlása miatt mára már alig néhány ezresre zsugorodott a közösség létszáma, amely területileg napjainkban is Szászföldre koncentrálódik. A szászok mellett azonban román és magyar nemzetiségűek is jelentős arányban vannak jelen az egyházban. Az ágostai hitvallású evangélikusok többsége városban él, népességük pedig az országos átlagnál lényegesen idősebb, ugyanakkor iskolázottabb is, különösen kiemelkedő a felsőfokú végzettségük aránya.

Biserica Evanghelică de Confesiune Augustană a fost inițial biserica sașilor transilvăneni. Din cauza emigrării sașilor, numărul membrilor comunității s-a redus la doar câteva mii de persoane, care sunt concentrate geografic și în prezent în Țara Sașilor. Pe lângă sași, românii și maghiarii sunt, de asemenea, prezente într-o proporție semnificativă în biserică. Majoritatea evanghelicilor de confesiune augustană trăiesc în orașe, iar populația lor este considerabil mai în vârstă decât media națională, fiind totodată mai educată, în special prin ponderea ridicată a celor cu studii superioare.

The Evangelical Church of the Augsburg Confession was originally the church of the Transylvanian Saxons. Due to the emigration of the Saxon region, the community's population has now dwindled to just a few thousand, still geographically concentrated in Transylvanian Saxons region. However, in addition to the Saxons, Romanians and Hungarians are also present in significant proportions in the church. The majority of Evangelicals of the Augsburg Confession live in cities, and their population is considerably older than the national average, while also being more educated, with a particularly high proportion of those with higher education.
